

# DANIELLE TORRISÈ

## ASPIRING WEB DEVELOPER

### INTRO

I am switching careers into tech in Spring of 2023. My goal is to become as proficient as possible in the skills I am learning during this time in my Full Stack Web Development Bootcamp. I enjoy web development because it is logical, but also creative. I am also interested in Robotics, AI/Machine Learning, and learning French. I believe that the best employees are well-rounded, and I enjoy acting, dancing, and singing on the side of work and school.
